INTERNSHIPS

Emerging Technologies (AI & Cloud)

Feb 2024 - March 2024

Edunet Foundation

ACADEMIC PROJECTS

Online Slot Booking for a Sports Club

- Built a Django-based web application for booking sports slots with automated email notifications.
- Ensured seamless user and admin interaction while managing data with MySQL.

Smart E-Bus Pass

- Developed an Android app with Java for bus pass management, including registration, payments, and route handling.
- Used Servlets for server-side processing and MySQL for database integration.

EXTRACURRICULAR ACTIVITIES

- Trained 3rd B. Tech students in PowerBi.
- Led a team of 4 members to successfully complete two projects.
- Successfully organized 24-hr Hackathon at KITS(S).
